The following category review, which compares results of the current quarter with the same quarter of last year, is presented in Like-for-like ("LFL") Sales, which adjusts Net Sales in constant currency and excludes the hyperinflationary subsidiary:

Skincare: -12.0% decline where 8.2% increase in Teatrical was offset by challenges in Cicatricure and Asepxia. The Company is focused on executing the turn-around strategy in place.

Cough & Cold: 13.6% increase resulting from a successful winter season execution in Mexico, boosting Genomma's market share in the flu segment to a record 20.5%. While Next increased by 81.5% and XL3 by 42.9%, these results were partially offset by weak performance of Tukol in the US market due to a milder winter.

Beverages: 14.4% increase driven by robust performance across regions, exceeding the Company's estimates. Genomma has successfully launched Suerox in more than 10 markets.

Analgesics: 13.0% increase driven by XRay, BioElectro and Alliviax growing by 11.8%, 34.1% and 3.3% respectively. XRay achieved 10.2% of market share in Colombia, consolidating its position as the 3rd biggest player in the category.

Hair Care: -0.7% decline due to third party contractor lower supply pending transfer to Genomma's manufacturing facility. This did not affect the Company's sell out results.

Derma OTC: 6.8% increase driven by the category relaunch in Mexico with revitalized packaging design, robust instore execution and a renewed TV advertisement campaign.

Gastro: 26.5% increase driven by strong performance in the three core brands: Nikzon +30.3%, QG5 +20.9% and Genoprazol +23.4%.

Infant Nutrition: 50.2% increase with Novamil outperforming across all core formula variants and increasing market share within the respective segments.

Blades & Razors: 13.2% increase with Groomen increasing market share in both Mexico and Chile, led by the successful launch of disposable and cartridge SKUs in Mexico.
